This document describes the management plan of the collaboration between TGBN Partners in order to fill possible technical gaps, as described in the TGBN Charter Revision no. 1. point 10.3.

PARTIES:

- A. PARTNER OFFERING THE SERVICE** (hereinafter referred to as PARTNER A)
Biobank: Cell Line and DNA Bank with samples from patients affected by Genetic Diseases,
Director: Mirella Filocamo
- B. PARTNER REQUESTING THE SERVICE** (hereinafter referred to as PARTNER B)
Biobank: Human Genetic Bank of patients affected by Parkinson's Disease or Parkinsonism,
Director: Stefano Goldwurm

MANAGEMENT PLAN

PARTNER B, requesting the service, is expected to follow the "sample in and out" rules, as follows:

- alerting PARTNER A before sending samples
- requesting samples by logging onto the on-line IT system of the TGBN
- using relevant PARTNER A submission form filled in with essential data
- using relevant PARTNER A consent form, signed by donors
- in case of scientific report in which these specimens will be used, **concurrent presence of acknowledgement** to PARTNER A for having provided the service

PARTNER A, offering the service, is expected to:

- provide the agreed service
- manage the distribution service being subordinate to PARTNER B.

PUBLICATION IN THE TGBN ON LINE CATALOGUE

Sample data are maintained in both Biobank database. Parties agree that samples should be published in the TGBN on-line catalogue as samples of the PARTNER B Biobank.
